From TAPE # 5
In Detroit, Mich. by DR. BHAGAT SINGH THIND

TITLE: "Progress thru ego-centered planned chaos or by Free Choice Working with the Will of God and the Moral Law."

In this room, this is the 5-th week of these classes. They are conducted 3 classes a day. 12 to 1, a class in Health; 3 to 4:30 and 8 to 10 O'clock.

Tomorrow at 3 o'clock, our lesson will be on "Pain is medicine, what is not joy is discipline." That's true. The avenue from nobler joy & greater growth Godward. Things that you don't seem to like - if you deal with them successfully, conquer them, they will only bring you your highest good & highest growth.

Tomorrow night will be... 'The Quickening touch of the Master floods the soul with a heavenly brightness during initiation.'.. a profound experience to work for & win new freedom. That the teacher does with competence whose mind is integrated - in whom the stream of Life is running & can successfully fill your being with Light; saturate & give you a new start - a spiritual start. Like the leaven in the dough: a little yogurt in the milk.

Some announcements will be made. Those who want to join our noon-hour class, who are members of this class - there is no condition for them - you can come any time you want to, as many times as you want to - come along. Those who have never taken the work before at noon in health.. we do demand (rightly) that you give us 5 days a week - & 4 weeks regular attendance to learn such a beautiful science by which your body can be kept always in its healthiest condition. It's worth it.
We combine 2 things: corrective exercise and selective diet. Once a week cleansing of the body and daily elimination of breakfast altogether and keeping the stomach 6 to 8 hours free, only taking fruit juices 1-st thing in the morning when you get up. You must always keep this in mind that you want - MUST - build vitality for your body. You're spending it all the time, squandering it, you're depleting yourself. Unless you replete each day it's just like drawing a check on the bank; unless you keep adding more in the bank, all the time drawing, will some day make that check bounce back on you - right? You're bankrupt. As long as I keep storing energies, I don't mind spending them. I deliberately build up each day by doing exercises, it adds vitality inside, & values for the soul. These TWO are the most important things.

Life offers you all kinds of opportunities.. available to you. Brings you ups & downs, pain & pleasures, gains & losses, right? There is no day that does not have these in your life, but they are all carriers of values. They all pass away, but the values they offer you remain. Each event has a duration & you must learn to draw all the given values that that event carries in its bosom for your personal enrichment. THIS has to be learnt.

An insect draws sweetest honey from the bitterest flower. Instead of talking about our troubles, let's learn the ART by which we can draw all the values that come to us. If you learn how to live, this is creative living; self-enriching, self-elevating, self-sustaining. This is the job each day. Add a little more each day to our worth. I'm not against dollars but the main job is that I build worth inside - becoming worthier, worthier. Worth-building is the chief job. No man in the whole sphere of mankind has ever succeeded in drawing all the values that events carry in them.

God runs this world: over events you have no control. But what you do with them is your business, right? Let them hurt you - let them help you - over that you have control. Then you'll soon find that you live in a marvelous universe. Universe is made for the growth of souls; so by conquering it we grow; and souls by transforming it grow and by transforming world it also grows too -- remember that. World gives the man growth, man gives the world transformation. In the last 300 yrs. American genius has transformed this vast continent of the abode of savages, buffalos & beasts; now it is the abode & home of over 200 million people -- get my point? That's what man can do but he must first be transformed himself inside. If you have harmony within, you shall have harmony without. So the first job is to learn how to make your life a psalm, a song, a unity, a benediction. If this desire has not ever entered your heart - you haven't arrived at the state where the wonder of life & its growth can be appreciated. This is the science of Meditation. This is our Key, our greatest contribution to the welfare of humanity. No science is richer. In this you can come to know God & God's love, presence & the joy that upholds you, His Intelligence that sustains us. And this is the greatest knowledge. I don't know why some of the dumb people don't benefit from it. 2-d opportunity will not be offered to you. This is the job to excel what you were yesterday, into the self you are building - growing. This way we add a little more inner worth. A few years ago our corn crop was going to waste - now they know how to make protein from it; like sawdust going to waste, now we make chocolate out of it. This is discovery of values - it carries in it.

I was discussing these things with Gene awhile ago.. it is only men of most sincere being who SEEK this KNOWLEDGE. But some I wonder if their judgement is right or not - they haven't got a head... vast amount of devotion has been wasted. Blind devotion. Fickle. We don't advocate any nonsense like this. <u>You command your Guru by the life you live</u>. He who lives the life I teach him to live - he's my master, I'm his servant. Command me by living the life - & I shall love you the more. Let your devotion be enlightened - let it not be blinded. No human being is worth being loved by himself - it is derogatory.. to love God in them is laudatory. Am I being understood, please? So this is what is missing in you. You are devoted but your devotion is mis-directed. So you must learn both sides. I sometimes think of these so-called masters... their thinking is running the same way as it was 2000 yrs. ago.. no improvement! No approach for the better at all. Unless your mental life is fluid & flowing, dynamic & creative, you live in the past! Past is ever receding in the future. Then, you have to out-prove everything yourself.

So this is the MEDITATION SCIENCE & to discover this SOURCE within you... we call it NAM, the WORD of GOD. Without the NAM - there will be no transformation of your being.. no change in your animal nature or of your ego-centeredness. There are not many ways to God... only ONE WAY to GOD. They talk about it in many books, different ways of going to God.. they're talking nonsense. Only ONE WAY - the WAY of the WORD. "Except ye be born again of the water & the Spirit, ye cannot enter the Kingdom of God." And this NAM is called WORD in the Bible. Christians must come to know this WORD - otherwise Christianity is cracking up. The Pope himself is yielding to the pressure of advancing times, right please? No church can hold on to its 'form' when science is marching on - forward... unless they become scientific too. Truth in religion cannot be a lie in science & vice-versa. They're both one truth - wake up!

Join this class now - once the advanced lessons begin - we will not accept any new ones.. that is definitely the law of my teachings. Have yourself further fortified by this greater knowledge that I am offering you. My teachings have much more punch in them... you will see how beautifully you will change. Live the RIGHT LIFE & you will CHANGE!

Now your kind attention. We see all the leaves falling - this happens every year, this is one of the cycles of nature. Be a tree, not a leaf; for tree is body & leaf but a function. Body is a function, so is Eternal - so is a tree. How many understand that? We must begin to learn, to discriminate between that which is ascension & that which is only an acceptance - for a while, a 'help' for our growth.

I like the Peanuts stories, the author shows understanding of life. This is the dog 'Snoopy'. "When I was young I used to howl at the moon every night (you do the same) you're always howling... I was wild & ignorant in those days; I had lots of fun, though. Now I don't have any fun & I'm still a howler." No growth. If you're growing you won't get old.

It takes a mentally mature person to see things as they are & to face the facts of life. So this cartoon has something for you to grasp. Another snoopy cartoon. "Sometimes when I get up in the morning I feel very peculiar (don't you? - you jump at your wife, you howl at your husband, at your children--- you wonder why....) so sometimes when I get up in the morning I feel like I just got to bite a cat... I feel that if I don't bite a cat before sundown, I'll go crazy." (racial feelings... against your wife... the same thing.) "But then I just take a deep breath and forget it." This is coming to maturity. Don't let things bother you - but just don't take a deep breath & forget it either. Forgetting a problem doesn't solve the problem, right please? People getting drunk, eating sacred mushrooms. There is NO GROWTH from drink or dope, it cannot be. You have to build moral worth inside - there is no other way - NONE. Life is always seeking its greatest manifestation - don't waste time: live, grow, strive, thrive - but don't waste time!

A newspaper clipping bearing on the subject. A daughter answered

the telephone, talked 10 minutes & hung up. In reply to her father's compliment on the unusually short conversation, the girl said, "Oh, that was wrong number." "If it was 10 minutes talk with the wrong number - how long would it have taken with the right number?" Now all these things have a bearing on the subject we are coming to.

Shakespeare says, "Mount my soul..... ! That is it -- it must mount, greet & beat all that comes -- you don't carry all the comforts with you. Be at home with God -- here & now !

Our mind keeps throwing monkey wrenches into our machinery, in our way. We MUST LEARN to develop this mind - so we can work with it. Is your ego the center of your universe? Leaders were wrong in Germany - brought much misery to the people... Benito, too... said they were super-men. Oh no, there is a Divine man. A man must graduate from ego-centered nonsense to become God-centered. Benito was ego-centered & brought nothing but misery to his people. Gandhi was God-centered & he brought nothing but joy & fulfillment to mankind. I wrote my wife today that I was going to the zoo to see my ancestors... I hope they recognize me (laughed). I shook hands with a big monkey thru the bars... "do you recognize me? long time no see." You talk about your ancestry - look way back & you will find someone hanging from the tree from the top. There MUST be the lower before there can be the higher. We are not created, we are evolved! How many understand the difference?

Then there is the craving for grand living. I'm the high mukity-muk.. my son admitted at school where only the best can go.. higher class.... I'm Brig. General... I'm the high Potentate of so & so Lodge. THIS is in man's ego.. all these lodges in America are appealing to man's ego. But maybe the wife is knocking the stuffing out of the high potentate at home. All is wound up with the EGO & forgetting the Realities of Life.

Man by becoming man has lost the inner sense of the beast. The beast has no worries, no mind - his needs are cared for. But man, his mind can look backward, he can look forward and if the man's past is not dependable he is singed & it makes life miserable. If his past is beautiful he feels happy & is backed by his own past. When he looks to the future, he doesn't feel very good. Man is always discontented, he is always reaching out for something more - he is never satisfied. If he is blonde, he wants to be a brunette; if he's long he wants to be short; if thin, he wants to be fat; & if fat he wants to reduce. Right, please? You're never satisfied, always disgusted with yourself. And it is this disgust that is the man's Hall-mark of progress: only disgusted beings make progress. When we attain to being human - we cannot be happy unless we attain to the innocence of the gods. Please remember, we have lost the innocence of the beast & can never be happy unless we attain to the innocence of the gods. We MUST KNOW what is RIGHT - work with it, let go & enter the higher worlds inside us.

Animals do not sweat & whine about conditions -- you do. I've never met a human being who does not whine. I sometimes deliberately ask people when they go out..."how are you?" --- "Oh, so & so" -- next one, "Could be worse" -- "you?" - "Oh, no use kicking" .. You never find one that says "I feel fine."

There is something rotten in you in Denmark & it's not all cheese. You are supposed to be healthy & happy; your insides want happiness. God built you for happiness - you hunger for it - you hanker for it.

The will to possess dominates man: as long as this is in you - you are NOT mentally mature. It's a MANIA. But when the WILL to BECOME takes hold of you & you become nobler, nicer & sweeter, then all this & heaven will be given. As you build from within - you draw from without.

What makes man miserable is the birth of thought. Man is a thinking animal -- we are 'thinkers'.. & if you don't think for yourself, your mind shall become the property of another mind that will do the thinking for you. Is that a fact? If your mind runs in ruts, you're dead at the neck. Only difference between the grave & the rut is 'dust'. THINKING is NOT an easy job! Most people want to have their minds run in ruts, it's easier. RUTS: 'Ol time religion' - 'halle-lu-ya'.... 'old time religion, new time Cadillac'. Right, please? It doesn't make sense, does it? New wine in old bottles.. they'll bust up. That's what they are doing now - they are busting up.

First the activity of man's mind is uncertain.. mind's thot runs in circles. Most people think that they are thinking. They have memorized certain beliefs crammed in the head & doing the same, all the time, just repeating.. & thinking that they are doing something worthwhile. Going 'round, 'round, 'round, 'round, 'round, 'ROUND - in the same RUT.

I once saw in Spokane - there was a river flowing - a bridge over it & a cascade falling down & making whirl-pools. In those whirlpools, there were pieces of driftwood: they were going 'round & 'round & 'round. And I kept watching them. I had a secretary in those days, I looked at him. I said, "does that remind you of anyone - such things in mankind.. people that go 'round & 'round & 'round? Like a squirrel in a cage.. all the time going but arriving nowhere." Right, please? Is your mind elevated? Your heart elevated? Your mind & heart have some contribution to make to each other, just as the man has some contribution in the life of a woman & the woman has a contribution to make in the life of the man. We seek relationship in holy wedlock for one purpose, for greater fulfillment of life. So both of these, heart & head have to contribute something to each other. Yes, they go 'round & 'round. Can these people fulfill? Let's take another one.

The rain from behind the flood, the snow melting on the mountain tops, swelling its stream with running waters, will knock them out of the whirlpool! Is man different? Is there a power behind

man compelling us to go forward? Rushing, seeking its own ends? And sweeps us from all moorings? Let's discuss this power, what is the name of this POWER? What is the power that makes man move forward? Man is willy-nilly & most of the time nilly. He does not make progress willingly. Man is colossally conservative, lazy, full of inertia; he only makes advance when he is compelled to. You're compelled by miseries. By not offering the integrity of the self, you keep on believing in thoughts and not believing in the integrity of the Intellect - you revolt against it. You are compelled - you want to know the name of this power. So there is power behind the wheel - compelling us to move forward. It's worthwhile to find out something about this power & work with it. Ancient Indians call it ' KALI '; same idea persists in all religions thru-out the world. Where they worshiped & sacrificed goats & sheep. There are still people thru-out this world who are still barbarous in their concepts of religion. There was a time when people sacrificed their babies to a god.. their first-born children.. that's where the idea came from - to give a sacrifice to God. YOU'VE GOT TO SACRIFICE YOUR OWN EGO-ISM !

Told of the goddess in Hindu Temples.. holding a babe in one arm, one breast bare with great tenderness for the child; on the other side, fury. . (more, but unable to understand the words from tape.) To depict the growth of nations & humility. Is the power of this terrible power working in the universe? Work with it & this power is like an idolizing mother... work against it & she'll trample you on the head, drink your blood & march over your corpse. Get my point? That's the symbol. We don't have to think too much in symbols as long as we understand the substance they represent. Like our flag: a beautiful symbol but may God give us the strength to live up to all that it stands for. Mere dry worship of the symbol is NOT ENOUGH... but you must carry out those great qualities that the symbol represents.

Among the Sikhs.. ' KALA '.. the man grows in more knowledge. Every Sikh at the end of the prayer after meditation ends up with this.. it means, "may that come to pass which is thy scheme of things." This is the next step, that life must manifest TRUTH.

Like my son when he was a little fellow - he was very short.. we love them at that age.. after the crawling stage.. was about 2-3 years old. And one day I said, "hello baby - come to daddy".. he said, "don't call me baby, daddy, I'm your BOY - I want those long pants." "Oh, you're all ready for the next step." What life makes man achieve, she first makes him conceive. How many understand this? That's the way it comes.

We are thinking of the burden of man, of disarmament, of avoidance of all the destructive poisons, isms & sciams. There is such a larger power inside us working that makes us seek for larger life, still more, still more larger horizons. But we don't seem to help it much. (this power). And if you've not felt the need of a larger horizon yet, you are not mentally mature yet. You are barbarian, savage, just fill the belly & you're satisfied..

lots of food, sleeping with a woman, a man, chewing gum & looking at the television set, that's all you want. But this power is behind the wheel compelling us to move forward.

It is THIS that the ancient Greeks called 'necessity' & talked of this necessity .. its NEEDS MUST COME but thru whom must it come... they wanted to know. There is such a thing - a necessity that makes man grow, move forward. TRUTH is universal, yours is not, it is prompted by your likes & dislikes.. you have to outgrow this. Not to kill, despise or deny.. but to deify. Learn to draw from all, the values that make us always go forward.

In a few years all of Asia became free; there is nothing that the white man could have done; it is the spirit of the time. All those NATOs... etc... but this is NOT freedom; freedom comes from within. He alone is a free man whom truth makes free. "You shall know the Truth & the Truth shall make you free." Free from everything that bothers you, and this we have to learn HOW to break away from our circle... we're coming to that. It is this one that Freud calls the 'libido'. You brought it - it breaks the dam or flows on the side-way.. makes the country-side a swamp & your life becomes swampy. Selfish life is swampy life where nothing but obnoxious things grow, remember that. Your life must be made like a spring again - you must run to the Ocean. Like the gurgling water running from the mountains, making noise, its waters of life-giving. But not so are the stagnant pools. Mentioned names of great thinkers: they all mention the same thing that there is something that makes you move forward. Unless you go with it - you will not know the joy of life & living! There is something inside you that is seeking its own fulfillment.. IN & THRU YOU.

Christians call it the WILL of GOD. "Thy kingdom come, Thy will be done." THAT kingdom will not come unless you let your little kingdom go. God's will cannot be done unless yours goes. Two wills cannot be, unless together they seek the same goal, right please? Opposition must go.

Browning so beautifully puts it: "My will is mine just to make it Thine."

For when God's will is my will - it will find fulfillment. And that my will would seek confirmation, for the fulfillment IN God's will. And this is what training will do. Something that comes from inside.. a Divine afflatus. We can't run away from it.. impossible! But to obey it, boundless risings open up. My mind is so fully opened up now.. it welcomes ALL that God has to give me. God make me Thy child.. the complete fulness of Thy Life... still more, to express this. From these far distant lands... what is not here, is NOT ANYWHERE. IF God is not within me -- He is nowhere! How many understand this so far?

So this is the power behind the wheel that moves the whole universe: of that distant goal that Tennyson speaks of and of that goal.. it can become visible to us! IF we learn to MEDITATE! You can all become men & women of vision. Nations without vision perish! And your life without vision is not worth a tinker's dam:

you're going 'round & 'round - finding yourself in dead-end streets - yes. Labor & time wasted & caught up miserably - unable to extricate yourself. So now we come back to where we started.

First thing, the mind keeps running in circles. Now how long shall it take a man to open his mind for something more? Have you ever been able to convince these orthodox people against their wills? They'll crucify you.. they will kill you tomorrow in the name of religion, they've done it before! More humans have been killed in the name of religion... even tho they won't let them kill you anymore - they still give dirty looks to the people who don't think like they do. Right? "You heathen, you don't believe in my Jesus - you're lost." They give you those looks. I don't know why they pick on me... because of my beard & turban. "Are you saved?" "I'm not lost".....

So now some day a karma will come into your life.. a definite karma. When you don't grow thru evolution - you shall grow thru revolution. There are just two ways of growth. Evolution is working with the LAW, trying, working, growing from glory to glory. I have known in this incarnation nothing but that.. growing.. mounting up higher, higher, higher, because I want to become God-like. My whole being wants to live that life. There is no opposition: a new-born nature, a new-born will. You're not sold on the idea yet! What is the purpose of being here in this world? Then comes this power.

Every time a carnage comes & knocks you out of the whirl-pool that you are going 'round & 'round the clock -- you then go around & again become stagnant. You were Catholic before, now you're Holy-Roller. If not a Holy-Roller now - then maybe Methodist, Baptist. Each religion seems to hate everybody else. You're lost because you belong to THAT gang. Your mind needs to grow a little yet, a little more yet. This goes on 'til man opens - & this is most painful! The more scientific he becomes - the more keen his mind becomes... more keenly he feels the pain & pleasure of life. In one hour of thinking, man burns up more energy than a worker digging ditches for 30 hours. Put a weight of a hundred pounds on his head.. to go 10 miles jogging: but don't make him think for five minutes.. it's too much. THINKING is the hardest job. And that is why the people who think - rules those who do NOT THINK. In this city of Detroit - of men who think -- about a half-dozen men control the entire city.. they have the controlling power. Work to be FREE - to become higher - by free & deliberate choice. . . So this goes on - many lives... many lives.

Have you seen the statue of the 'THINKER' by Rodin? very beautiful. Man lost in thought. Explosions of energy take place in his brain. That's what makes them nervous wrecks. Almost all statesmen, executives, thinkers die of nervous exhaustion; churchmen too. Geo. Abbott, Popes, too - all men who do the thinking.. great men with great minds perish. The mind uses the body like squeezing the juice of a lemon. UNTIL we learn to think with God & you have to do it.. & this is when the mind runs in straight lines. This statue by Rodin is a wonderful

portrayal of this mental state... man thinks, then tension comes. Brain storms... mental explosions.

About this tension: attention brings tension. All human beings are tense, every one! That means that you are alive, that you do the thinking. You feel that pain (demonstrated by pinching cord in neck) that's tension. The dumb fox has no such thing.

If I want to play the violin, have to tighten the strings; but if I tighten them too much.. snap, the cord snaps. Or not enough, no music. So tension is vital for growth. Life never gives you anything - anything of this earth unless she puts you thru the wringer first. That's a fact. View point is wrong - these modern cults are wrong. Think a beautiful thought.. you have something. Oh no, they're jipping.. that's mental hold-up. God never gives you anything unless he puts you thru the wringer first & makes you EARN the capacity inside... capacity.

Worry brings dysentery. There is a successful worry, a constructive worry & an UN-successful worry. Learn to worry successfully & NOT destructively. Learn to 'give up'. Until we discover LAW in the world - universal -- (our thinking power develops this).. there's no successful person. And when you work with the Law .. you fulfill the Law.
He never gives you the whole thing --- if so, it would be jipping someone & it would be disasterous upon you! Mentally give up.. give up & go UP like a spiral... up & up, but man still does not know the whole truth.

I no more think.
I know the Law & fulfill it in my life of living & let God bring me my highest good, in His own time - not in my time.
God brings the results 'in time' & He knows what time is best.
IF you insist on having your own time -- you are NOT working with the Law. You're psychologizing.

My wife, daughter & mother-in-law were in Buffalo, 1940. Was going to Canada after seeing the Niagara Falls. So about eleven o'clock we had a light lunch.. telephone rings. Wife answered, "darling, there is someone who wants to talk with you." I recognized the voice. I said, "Tommy, where are you?" "I'm here, down-stairs".. and he was my student. Later on he became a Health teacher.. there was more money in selling vitamins & pills & Royal Jelly & Yogurt. "Come on up" ... he did.
"Tommy, have you eaten?" "Not yet".. so I told the good wife to fix something for him which she did very graciously.
"Dr., I'm your good disciple & you've always taught me to use the power of thought to influence people." I said, "I never taught you that -- I never taught you to influence people: I taught you to mind your own darn business. You've so much to do that you've no time at all to mind anyone else's business. Be like an orange tree that gives off perfume wherever it goes, and you have been using your thought power to influence people."

Tommy said, "I've just demonstrated a brand new Lincoln car out of my students." That's psychologizing.. demonstrating a brand new Lincoln car out of his students. I said "that is looting... jipping the public. If I pick up that purse, is that demonstration? (in stick up). When a man with a strong mind influences a man with a weak mind, is that demonstration?" He looked at me with disgust... Tommy said, "That's the trouble with you Indians - you don't know the power of thought to influence people." I said, "We do use it, but NOT in influencing people.. but in creating.. in doing things RIGHT."

There is a power to get the things you want but there is a RIGHT WAY of doing it! I told him before he left, "Tom, you've violated the Law - the law is no respecter of persons, cause must be followed by consequences." My words were prophetic. In less than 2 months' time he stepped into the Lincoln on highway.. to see how fast it would go, over a hundred miles an hour. A farmer in an old jaloppy from the side road came on the highway: he had to decide whether to hit the jaloppy & kill the farmer or.. he turned the car & hit a big tree.. full speed at a hundred miles..... What happens when you hit the tree at a speed of a hundred miles an hour? Car was completely smashed.. he was badly lacerated.. knee-cap fractured & rendered completely unconscious by the impact. He was brought to the hospital by the Police Patrol unconscious. And next morning when he regained consciousness - he called for me. "Master, you were right; great powers came to me by using the power of thought thru other people." DR.: "I hope you've learned your lesson but you are paying a terrible price. Don't use the power of thought to jip people."

You use the power of thought to draw a house, IF a house is what you need. If you NEED a house, won't the two meet? Now what happens when you throw a stone into the water? It makes circles & reaches all the cubic area of the pool. Now what happens when you hold a thought within for what there is a REAL NEED? A real need in your life? There is a difference between NEEDS & WANTS! You have a multiplicity of WANTS in you... but that is NOT NEEDS. Life has needs & whatever you NEED will come.. children, whatever.. IF you NEED it.. they will come to you.. IF you act worthy!

Let me show you how the POWER brings... how it brings. I don't use it, I'm not interested in demonstrations. I am interested in getting into that power from which all things & thought come. The whole universe, it supplies all my needs. It knows them without my telling.

I'll give you a small illustration. Let that mind be in you that was in Christ Jesus. Man proposes - God disposes. Gave examples: what does John do with these plans? Planned chaos. But they do not work with the Law of God. The highest welfare is to will, to be in the Will of God. Let me give you illustration of that power. I used it once for experiment.

My father-in-law, not yet at that time (was courting his daughter). I was a guest in their home & while eating, he brought a small book, Vornez'(sp?) "Ruins of Empires". He wrote this lovely book, it's

worth reading. And he said to me "This book I would not part with for a thousand dollars. But you are part of the family, engaged to my daughter. I will trust you with it." I said, "Dad, I don't want it -- I never want crumbs off your table, I want the whole darn table in my own right.. I want the fulness of life.. I want all this & heaven, too." It's my birthright - every human's right - every human being must have the fulness of life: complete realization, complete. I said, "I'll get it." "But you can't get it - it's out of print." I said, "I've got a Genie working for me."

If you want anything to be done - bring it before the Divine Mind inside you. "This is what I need, Papa - I need this, Papa - I'm willing to pay whatever price to labor for it -- bring it into my life.. it is a genuine need in my life - necessary for my growth, bring it." And God will guide you.

So next morning, after meditation I deliberately brought the book before me & said, "PAPA - I want this book." Nothing is too much to pay IF you need it. Told stories of a small child wanting something very badly.. was "only 2¢, mother" but mother explained they had no money. Another child with mother wanted something & asked for it. "How much is it? Take two if you want them." She had the money to pay for it. IF you have the power pay for it. "PAPA, I need that book."

That noon a disciple had come, a devoted one: "Will you have lunch with me?" "All right, let's go." So we were walking & I knew there was a Book Store in that section. We stopped, went inside looking around & way up on the top shelf THIS BOOK was looking at me with the googely-googely eyes. 25¢ a book. So I said, "Look here, look, look, look, hey look".... "Look what?" "Look here, my father-in-law said this book was not available, look this book & it is only 25¢." So I bought 2 copies for 25¢ each and called my father-in-law on the phone. I said, "Dad, would you pay $500 for one of these books?" "Don't tell me you got it?" I said, "Two of them for 25¢ each." There is a mind in you when you use the power of thought... when the real need comes.. God will provide.
Sat-Gurus bear witness: where there is a need & you pray - it will come to you. So thought power can be used but I don't use it. I never worry about things anymore - I just do the best & leave the rest & feel blest. And my mind works with the mind of God.. my mind here & the God mind here are just made one. In all thoughts I think with Him & He with me! Universal.. there is no limit.. I have no prejudices, no bias, no offenses, no superstition.. in all things I think with this MIND. Thank you.

Now those who think this was a worthwhile lesson to hear - raise your hands up. You can walk a thousand miles to hear such things - very simply given. Love offering. Freely you give, freely you receive. Obligation only begins when you are mentally mature & work with it with free & deliberate choice.

Conversation continued.
And tonight is a wonderful subject "..... or the spooks will get you." I'm sure of it. Spooks are bound to get you unless you live by

the moral force. Where you go hereafter depends upon what you've gone after here. (couldn't understand... otherwise I am not for these psychic things.. they mislead you.. and not toward the fulfillment of your God-head. Then if you depend upon things you can't see - that is slavery & worse than the slavery of the SEEN. Any questions now?
On a development of the subject, or irrelevant to.

Q. When you arrive at the state of even-mindedness..... .... ?
A. You live in Grace. Remember the statement in the Bible.."Thy Grace is sufficient unto me"... This is right. Those who do what is right joyfully, working with the mind of God - from which all rebellion, resentments, bitterness is taken away - <u>these people live in Grace.</u> They do their best - they have no other idea -- no this & that.

Q. In meditation are we dealing with the super-conscious mind?
A. No, there's no super-conscious mind: no, it is the state beyond mind & matter: beyond time & space: & this is called Turiya Pad, another name for Sahansdal Kanwal. The state of super-consciousness where the soul makes its first contact with the REAL SHABAD..... (westerners have never understood this - they ridicule it -- that you are extinguished.. no, you're not. The 4-th state is Turiya. This state is where you are consciously conscious <u>of your oneness</u> with your whole Godhead. Where chip off the block becomes consciously conscious of relationship with the whole block.. get my point, please? And no more egoism left. This ego-ism is called Homen - it is the ignorant ego that is egoistic. This sense of separation will not be removed by talk alone; but when we experience this larger whole, inside our own being - <u>there's no conceit</u> left - no sense of separation is left - we're all the same.
It's <u>God here</u>, near by. On trip around the world, on the front of a Temple there were these words: "NOT KNOWING I - I TOOK THIS I FOR MINE, BUT NOW KNOW I, THIS I IS THINE" . There is NO PART that is of itself, for itself, & by itself. But when you wake up then you know that it's of the body, for the body & by the body.. & without the body it is not. Right? Illusion is gone. Ego is the same way. When you become aware - then you turn to "Thine is the Kingdom - Thine is the Power - Thine the glory." Ego is still there, but no longer functions separately .. it's not ego-centered.. it is God centered, <u>NAM centered.</u> So that is the Realization that we get. I and my Father are both One.. but my Father is much much greater than I am. And this, Christ's disciples did not understand. When Phillip asked him, "Master, tell us who the Father is and we shall be perfectly satisfied" .. He said, "Phillip, you've been around us so long and you should ask WHO the Father is?" "He who has seen me has seen the Father - the Father is in me. When I am with Him - He & I are both ONE." But He is much greater than any of us & of the universe, too. So this is something you have to experience in meditation. Gradually when your whole (non-dual) your whole being becomes one piece all over - you'll find that there is no sense of separation left in you. Homen is no more. Homen is a friend indeed. There in the Homen, your sense of egoism when turned toward God.. the Power of the WHOLE.. it seeks the WHOLE & then it is joined - then it no longer suffers from divided life.. <u>you find that</u>

you are completed now. Any more questions?

Thank you very much.
